2. Active Transportation Update and Discussion
 - More info [here](#)

The Haultain Street AAA bicycle project is scheduled for 2019. It is planned that during the 3rd and 4th quarter of 2018 the city will commence the design and early engagement process. We intend on having an open discussion about transportation needs and opportunities in the neighbourhood. This discussion will help to inform the first in a series of neighbourhood walks our committee has planned for 2018, sometime in April or May.
