

The Green Room is licensed for 24 children with three Early Childhood Educators and is the larger of the two programs with an Emergent/Reggio based philosophy.

Emergent Curriculum is a 'child directed' rather than a 'teacher directed' way of learning. The room provides more open ended activities and choices for the children to learn with and the Educators learn alongside the children by encompassing their interests in many different areas. This allows children to learn in ways that are meaningful to them and their learning styles. Documentation is a big part of Emergent curriculum and it can be seen as photographs, art work, written observations and displays. We believe that Emergent curriculum is beneficial to children in that they are able to have a say in what they want to learn about, which builds confidence and self-esteem.

Daily Schedule

7:30-8:30	Free play (combined with/in Red Room)

1:00-2:30	Nap/rest time and quiet activities
2:30	Wake up
3:00	Afternoon Snack
3:30-5:00	Outside time

“My son has been attending Little Acorn Care Centre for about a year now and in that time I have noticed nothing but positive changes in him. Not only have his social skills drastically improved, but so have his academics. He is able to problem solve, express himself and communicate with others better than ever before. My son is excited to go to school in the morning, and still has a smile on his face when I pick him up in the afternoon.”
